1. INTRODUCTION

1.1 PROJECT FLOW

Planning: Create a website for opening a restaurant “Hungry Time” using canva.

Canva Registration: Sign up for a Canva account if you don't have one already.

Choose a Template: Browse through Canva's website templates and select one template which is related to food.

Customization: Use Canva's drag-and-drop editor to customize the chosen template. Add your own text, images, logos, and branding elements. Adjust fonts, colors, and layout as needed.

Functionality: Add interactive elements such as buttons, forms, and links to make your website functional and user-friendly.

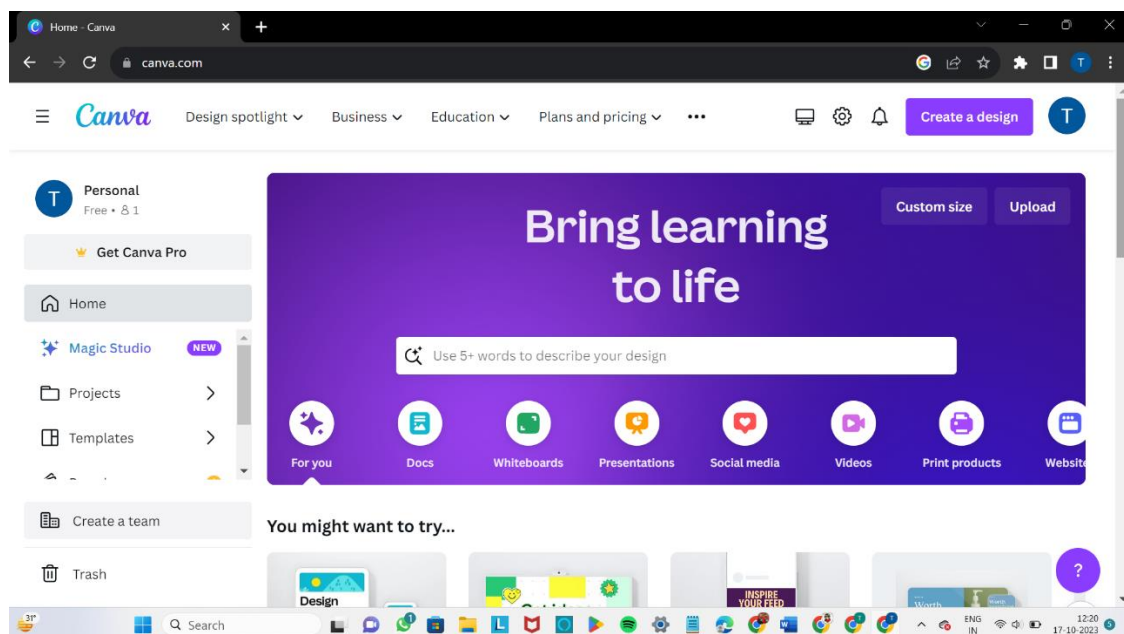

2. PROBLEM UNDERSTANDING

This project aims to design and develop a visually appealing website for opening a restaurant by utilizing Canva, a user-friendly graphic design tool. Participants will leverage Canva's features to create an interactive and responsive website that meets modern design standards. The project involves conceptualizing the website layout, selecting appropriate colors and fonts, designing custom graphics and icons, and arranging content elements cohesively.
